COMPANY PROFILE

Commercial License No: 1049296

No. of Chambers Members:

75705 Legal Form: Establishment

NASHWAN is a local establishment which was created in 1998 in Abu Dhabi. Since the beginning and according to the policy of its creator, the company core activity is the trading of spare parts and repair service for military platforms in order to serve the brothers in arm. We should be grateful for the confidence they immediately put in NASHWAN when the activity started. Since 2005 up to now, NASHWAN is an official supplier for UAE Armed Forces.

Spare parts procurement was the first activity of NASHWAN. We are able to supply spares for Navy, Land and Air Forces.

NASHWAN offers through the help of its industrial partners globally (Defense and Civil Sectors):

- Supply of spare parts from stocks or refurbishment;
- Repair & Overhaul of equipment/critical systems;
- On-site maintenance;
- Professional support.

Having its own high qualified team, NASHWAN has diversified its activity to comply with the civil sector requirements, especially in special applications where NASHWAN can offer to its customer innovative and high tech products;

- Solar systems: provider of Turn-Key solutions for photovoltaic systems;
- Environment protection equipment: Vessel Monitoring System;
- Equipments for Power Generation & Industrial Sector (Oil & Gas Onshore and Offshore, Power Station, Nuclear Plant, Refineries...); UPS, Frequency Converters, Exciters and PMG, Valves, Batteries.

Quality Management System:

NASHWAN is certified for Quality Management System since 14th March 2006– UKAS certified.

Scope of the Certification:

Supply and Repair management of spare parts for Aeronautical, Navy and Land Forces and Integration of Photovoltaic Systems.

Organization / Key Personnel:

- Chairman: Founder of NASHWAN, Abdulla Saeed AL RAHBI, a national who was in service during 22 years for the UAE Army, has been granted the Diploma of Higher Technician University Studies in Electronics from Pierre & Marie Curie University, Paris 6, France in 1992. Throughout his military career, he gained a longstanding experience in project management, procurement, equipment repair and reverse engineering.
- Managing Director: Anne AL RAHBI is also the Head of Sales & Marketing and Quality Representative of NASHWAN. Graduated in 1991 with a Master of Sciences in Environment at Wye College, University of London, she has also an engineering Diploma in Agronomical Sciences (ENSA Toulouse).
- Other permanent employees;
 - Head of Logistics Department
 - Senior Electrical Engineer
 - Clerk for Logistics.

What makes the strength of NASHWAN Company can be resumed as follows:

- 19 years of activities in Abu Dhabi emirate, with a good credibility gained from the governmental institutions and agencies;
- Skilled and professional personnel trained regularly for improving their performance;
- Strong network of partners/principals committed to perform the technical back up and assistance whenever it is required by the customer;
- Advanced, innovative and high quality products;
- Reliability for after sales services;
- Looking always for customer satisfaction above all.
